MTSM 2019

## 9<sup>th</sup> International Conference

### Mechanical Technologies and Structural Materials

In association with

Split, September 26<sup>th</sup> –27<sup>th</sup>, 2019

#### Call for papers

The Organizing Committee invites authors and participants to submit paper title and abstract (maximum 150 words) for the Conference not later than May 15<sup>th</sup>, 2019. Please, identify the topic area in which your article should be included.

#### Conference objectives

Industrial progress is closely connected with development and application of new structural materials as well as new processing technologies, rational use of existing and developing new energy sources. Particular interest is also concentrated on organization of production processes, quality management and environmental protection. At the Conference, leading scientists and experts from Croatia and abroad will present their latest achievements in areas of advanced mechanical technologies, energy engineering and new mechanical structures. The Conference will also provide an opportunity for collaboration and discussions which may form the basis of future cooperation among the scientific society and manufacturing businesses.

#### Topics

- Production Mechanical Technologies
- Structural Materials
- Industrial Engineering
- Energy Engineering
- Advanced Design Technology
- Production Management
- Quality Management
- Environment Protection
- Computer Simulations of Production Processes
- Tribology
